

THE DYE FAMILY'S TOP 12 OF 2012

1. Larry attended an airshow, "Sun-n-Fun"

In March, Larry & 2 other co-workers flew the 206 to Lakeland, FL to represent NTM in order to expand the need of aviation and how it is used in Missions worldwide.

2. Hosted young men interested in serving with NTMA when they came for technical evaluations.

3. Our family participated in a week of VBS this summer at the church we attend.

Ten children professed to trusting Christ!

4. July—Larry, his father, Paul, & Alicia flew a Cessna 185 trainer to Air Venture in Oshkosh, WI as part of an NTM/NTMA exhibit.

They had many opportunities to share Christ with people stopping by the tent! It was an effective way to get the word out of the immense need for aviation in missions.

5. August—2 new trainee families arrived to begin the process of our flight & maintenance training curriculum.

Larry spends his time maintaining the training aircraft & investing his time into the lives of the new trainees.

6. Kim assists with childcare.

Every Tuesday, Kim babysits the students' children while their moms take classes in preparation for their field of service. She enjoys getting to know these adorable little ones and it provides great opportunities to interact with the mothers, as well.

7. Said goodbye to a faithful co-worker on the hostess team who retired from 20 years of service with NTMA.

8. Alicia turned the big 1 8 this year

It was exciting to see her vote for the first time! Pray for Alicia as she chooses what direction and which college to attend.

9. November— The week of Thanksgiving Austin had a close call.

Austin had a motorcycle accident and was ambulated to a local hospital. Turned out that he had a broken collarbone. So this Thanksgiving we were praising God that it wasn't more serious than it could have been! He is recuperating well and appreciates all your prayers. Just 3 1/2 more weeks in a sling.

10. The Kodiak arrived to South East Asia!

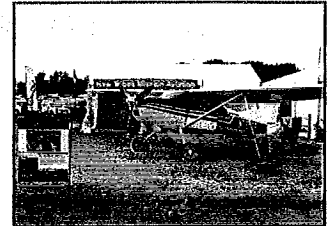

New Tribes has sent its first Kodiak to a field! The airplane is a magnificent tool that provides travel to remote tribal locations. After the year-and-a-half wait on paperwork, it is encouraging to know that this unique aircraft is finally being put to good use!

11. Our Co-workers around the world are hard at work in translation, teaching, and discipling the unreached!

12. We have the greatest partners like you who make it possible for us to do our part of the work.

It continues to be our privilege and desire to be involved in a network of believers who are partnering in the tremendous task of reaching the unreached with the precious message of the Good News of our Savior, Jesus Christ!

Our prayer is that you have a Wonderful Christmas with your family and friends as we celebrate the King of Kings humbling himself to become one of us. What amazing love that "the Word became flesh and dwelt among us" (Jn. 1:14) reminding us of the tremendous hope we have in Christ. And because of this Good News being shared in 2012 more believers are celebrating Christ's birth with us this season.

Merry Christmas,
 Larry
 Kim
 Alicia
 &
 Austin
