

Dear Brothers and Sisters at IBC,

Hope this finds you encouraged in the things of the Lord and in His Sovereignty!

A little news our end...Larry has been totally immersed in a 5-month, 2200-hour overhaul and refurbish project of an R44 helicopter. He along with other guys are preparing this tool for use in the Philippines. It will be worth all of the hard labor as it carries God's Word, missionaries, medevac flights and many supplies to and from remote locations. Larry's dad, Paul, even reupholstered the helicopter seats!

Alicia and Austin are both in college now and we do miss them but are grateful that they come home often as there is nothing like "family." ☺

I, Kim, will have a bilateral inguinal hernia surgery on November 6th, so please pray for a quick recovery.

Thank you!!

Love the 4 Dyes
