Dear Ones at Immanuel,

I want to THANK each of you for your Faithful financial and Prayer support. I find myself totally Blessed in these days as I see God at work in so many hearts and lives. You may wonder if we in Florida have any color or trees that loose their leaves----YES, we do --as a matter of fact, from where I sit for chapel these is a tree right outside the window turning a color of red. It reminds me to pray for all my friends, seeing beautiful colors.

I thought I'd give all of you some Praise and Prayer reports from here and around the world. Loretta who just finished her chemo treatments in Febuary—Continues to have good health and is cancer free. She asks that we pray that her house in Arizona would sell. Yet, in all things we Rejoice and find God faithful. Betty, who is one of my residents has been struggling with vertigo on and off for several months. She is visiting family now in New Mexico—her request is for added strength and good health, while she is away. My dear friend Anna is leaving our facility to live with her daughter and son-in-law. She asks we pray for her in this move. Specifically, all the changes---new surroundings, new Dr's etc. What a privledge to pray for these dear ones and see God answer.

Things are kicking into high gear for all the winter projects. Pray with us for safety, wisdom, and God's leading in these projects. Also that God would send in the right volunteers, with the right skills for each job. There is a lot to do---not just work on the multi-purpose bldg. There is a huge list of things we would like to start and complete. Continue to pray for the added finances to complete the new building.

Prayer requests from Overseas are sooo exciting! In Mozambique among the Mwinika tribe there are believers willing to step out of tribal tradition and learn to follow Christ. In Indonesia the new Kodak plane is ready to fly—Just needing government paperwork to be completed. Pray this happens quickly. Good Friends of mine Tom and Corine just returned from Papua New Guinea and have finished the Hamtai New Testament. It should be printed early next year. Their prayer request is to return to Papua New Guinea to help celebrate the completion of this huge undertaking. Pray for the details that must be worked out. Linda Krieg --who just retired here is working on finishing the Siawi New Testament. She is also having knee replacement done soon. Pray for God's perfect timing in all of this. We Trully serve A Wonderful God , And I believe HE still is in Control. I best close. Just keep me and all the other Staff, Residents, and of coarse winter volunteers upheld in Prayer.

In His Service,

Cheryl Euler
