

Dear *Mrs. & J. Manuel*

A huge THANK YOU for your generous faithful financial and prayer support. I believe spring has finally arrived. I even saw a field of winter wheat coming up.

This year since I retired has been SUPER filled with family times, making new friends in and out of church. I went and spent in Merrill, Wisconsin where I grew up. And spent a week in Florida for the dedication of the multi-purpose building, and also saw all the renovations being made.

A special THANKS to many of you who sent cards, phone calls, and other expressions of caring when I went through my lung biopsy and recovery. It was discovered that I have usual interstitial pneumonia. Which is a progressive lung disease for this there is no cure. I also have Sjogren's, which is an autoimmune disease. Which is not connected to my lung disease. Pray for wisdom as I deal with these situations.

Things going on overseas excite me. There are two planes being equipped to be sent overseas. One to Brazil and the other to Papua New Guinea. What a blessing these planes will be. In Mexico, among the Nahuatl tribe the two single girls have finished language study and have started translation. Soon, their partners will finish language study too. Pray as these folks begin preparing for the day the Nahuatl will hear the Gospel in their own language.

I covet your prayers and don't forget to drop by for a visit, I love company and the coffee pot is always on.

In His Service, *Cheryl Euler*
