Saginaw Rescue Mission is expanding its Moving Forward Readiness Program to include job training. Currently we offer Life Skills Training Classes and Employment Readiness Skills Development to prepare our guests for brighter futures. Guests may take classes in subjects such as nutrition, time/financial management, computer, communication, and job readiness skills. The Mission hopes to expand the program to include job training later this fall. Courses will include building maintenance, food service, office professional and certified nursing assistant. One of our guests, Catrina, has refreshed her interviewing and resume building skills. When she came to the mission she was discouraged and depressed. She has found strength in the positive people and provisions that God has provided her with since she has arrived and she looks forward to getting back on her feet and returning to the workforce. May God bless you, Catrina!

Dutch Apple Pie Sale!

Fresh, frozen , delicious!
