New Year, New Hope

Thirty six year old Marcus has been in and out of incarceration for the past 17 years. Many people come to the Mission looking for a hope for the future. His hope is to get his independence back. When asked what he hopes most for he said that he wished for the American Dream; financial stability, a home, a vehicle, values, good friends, and an enjoyable life. It is interesting how much Marcus's dreams are like our own. Marcus is in the process of choosing a path for his future. One of his options is to partake in the vocational training program that the mission offers.

Please join us in prayer for Marcus to make wise, God-led decisions for his future.

Rally your congregation for a night of fun and fellowship!
