Hope Fulfilled

Camisha and her three children went from house to house of family members after she became disabled. When she came to the Mission, two months ago, she was down and worried. “The mission gave me hope that we could stay together as a family, be in out of the cold, and has provided 3 meals per day...for free!” The mission has supplied her with resources to tie up loose ends and she expects to have access to housing in a week or two. Camisha has taken advantage of the life skills classes and will be a part of the Moving Forward Program. She has had help fine-tuning her resume and has applied for a job. “I appreciate the clean, safe environment and I’m just thankful that there is a Mission that cares and could save a person like me.” We pray God continues to bless you and your children!

Dutch Apple Pie Sale!

Made fresh and delicious!
