

August 7, 2014

Summer activities have come to a halt For Kathy. Last Saturday while walking with our granddaughter she twisted her left ankle and was unable to stand and continue the walk. I was called and went to pick her up. When I arrived I realized that this was no twisted ankle. We took her to the emergency room where after examination and x-ray we understood that she had suffered a fractured ankle. The x-ray showed three fractures.

All this from stepping on a stone about the size of a walnut. We were again reminded that God Is in control of our lives.

Monday's visit to the specialist involved setting up surgery dates and discussions relating to the surgery and treatment for the next few months. Surgery is set for next **Wednesday, the 13th**, provided the swelling has gone down.

Prayer request: That the swelling will go down for the surgery. For wisdom for Kathy as she learns to adjust to getting around and doing the normal things life requires.

We will of course keep you informed as to how the surgery goes and the follow-up.

Thank you for joining with us in prayer.

Dan and Kathy Stokes
