

Christmas 2016

We praise the Lord for the people groups who this year for the first time know about the baby born in Bethlehem who came to be their Savior. It is a great privilege to be a part of what the Lord is doing around the world. We continue to share the need for laborers to reach the unreached in churches and schools. We have been in several conferences this year and many local churches. What a blessing it is to have these opportunities. It was also exciting to go with a group of students to Wayumi in July.

Our family:

Joy and Duane are heading for Columbia, South America next year to be a part of the national training and outreach to Columbian churches. They are presently looking for opportunities to share about this ministry and praying about the needed increase in their support.

Amy, David and family are buying a home in Florida after the first of the year. Besides the move, they look forward to Dax graduating from college and Alexa graduating from high school in the spring. Mirabelle is in eighth grade and Finnian is homeschooling.

Faith has moved back to the states and is living in New York state. She is still working with the same organization writing for the website and social media.

We value all who been so faithful in supporting us for many years and all who remember this work in prayer. Please pray for our continued good health and strength to effectively carry on this ministry. Pray as we schedule next year. Pray that we will walk with the Lord every day and seek His wisdom for each decision.

For the unreached,
