

April 2014

From the Wymas

Paul's Oncologist appointment was VERY encouraging as the scans showed that all the lymph areas have SHRUNK in size! We are ecstatic --- and we invite you to join our praise party!!! And while you're there before the Throne and praising Him, we'll appreciate your prayers for my upcoming surgery on TUESDAY, April 15th at approximately 7:00 a.m. It will take anywhere from five to seven hours and is very extensive. In studying the results of my tests, they discovered that there's a screw, from my last surgery 13 years ago, that has dislodged from the vertebrae and the bone is cracked. So the old "hardware" will be removed and replaced and then new ones will extend on up my spine seven levels. But --- I'll spare you the gory details :) Praise the Lord, we have good friends that live up in Columbia where I'll have the surgery --- so Paul will be able to stay with them during the week (or so) that I'll be in the hospital. Many of you have written and assured us of your prayers and we thank you sincerely! All day I've been dwelling on David's wonderful statement in Ps.18:29 "..... by my God I can scale a wall"! By my God we can go through this surgery!

THANK YOU FOR PRAYING!!!!

Paul and Faith
