

I turned around in my seat, as we drove down the street, headed for Mexico, and there was my mom with her apron pulled up over her head, weeping! Oh Wow --- that was about 25 years ago --- and just the other day as we said good bye to Starr and Matt --- I was the mom with the “apron pulled over her head”! Our family has scattered after about eight months of all being here in Missouri. Who would have thought we’d EVER be together again after living so far apart for so many years!?!

After three years here at the Missionary Training Center --- **Matt and Starr** are en-route back to Mexico to pick up the church planting ministry among the Tepehuan people. They are both fluent in the language and excited about how God is going to continue to build the infant Church among these scattered mountain dwellers. They are taking the long way as they visit supporters, friends and relatives till the end of the summer

Their oldest, **Briana**, who married Matt Hamb a year ago are in WI finishing up their second year at the Bible Institute.

They are learning a lot and open to what God has for them in the future --- Matt loves mechanics and Briana loves people. They make a great team!

JJ is entering his third year at the College of the Ozarks, here in Missouri --- majoring in Spanish, with the goal of being a Bible translator. God has blessed him with a wonderful mind, and after his final year-and-a-half, he'll be pursuing further education in this area.

Caleb, their youngest, and Emily Heusby who he met at the Bible Institute, will be married on Aug 2nd out in WA, before returning for their second year at the BI in Michigan. They are pursuing a missionary career and now STARR is also feeling like she's the one with the “apron pulled over her head” --- as they leave their grown children behind.

Todd's oldest son, **Sean** and his wife Jennifer (Hyde) just passed through on their way to the San Antonio area, after he graduated from the Bible Institute in Waukesha, WI in June. AND --- **TAH DAH** --- they are going to present us with our very first GREAT grandchild in December, very close to their second anniversary!!! Can you believe it??? THAT only happens to OLD people ☺ They are getting involved in their home church, in New Braunsfels, TX before entering the Mission's training center here in Missouri. It will be interesting to see how God continues leading them in the

future.

After seventeen months of following jobs, **Todd and Chelle** are back here in Missouri and together with **Clay, Tucker** and **Mitchell** are finding jobs locally --- taking on the mission field right here. What a joy to have them back and these three young men are amazing! I know --- they're our grandkids --- but HONESTLY --- these guys have such sweet, loving spirits! Their dad is giving them a master's degree education in building, and Tucker and Mitchell continue their high school education. Each one is tender to what the Lord has for them in the future. What a joy for us to have them close!

That's our family update. Isn't it fun to see how God has answered your prayers and expanded YOUR ministry as you've invested heavily in our family down through the years with your prayers and support?! On the fourth of July Paul and I suddenly remembered that we started "going together" FIFTY years ago --- sitting on the back of my 1954 Buick, watching the fireworks in Chicago! ☺ THAT'S something else only OLD people can say.☺

But, we've decided that there are "perks" to this

whole growing old thing --- and it isn't just the senior menus at restaurants! ☺. Paul has become deeply involved in a couple of different areas here at the MTC --- and the years of experience play a huge part in the help he is giving on the Operations Management Team as well as the two different Courses he's been teaching for the last five years, Teamwork and Conflict Resolution. These are both areas that we were aggressively involved in during our thirty years on the field. They are pulling these two classes together and Paul has spent hours and hours on the computer getting the groundwork in order for this change, which they feel will make the classes more pertinent and effective for the students in training. He enjoys working with these teams.

And what is Faithie doing? Well --- I'm healing --- and hurting --- and learning more and more about patience! I'm trying to manage my pain level and working through the muscle spasms that are all part of the healing process. But, like the Dr. has said (and I know from experience) "It will take a good year to know how much relief I'll get from this surgery". I DO have a curve in my back again --- which helps my posture☺

Here is a quote from Amy Carmichael that I read often as it reflects where my heart is these days --- ***"Your prayer for perfect healing went to my heart. God knows how I long to be well and able to do more. But yesterday as I read Ps. 84:11, 'No good thing will He withhold from them that live a godly life'.....then....If health be that 'good thing', oh, how joyful it will be! Every morning I waken with hope, 'Perhaps today.' But I want first to want His will, be that will mine or not. It is there that prayer can help most!"***

yesterday as I read Ps. 84:11, 'No good thing will He withhold from them that live a godly life'.....then....If health be that 'good thing', oh, how joyful it will be! Every morning I waken with hope, 'Perhaps today.' But I want first to want His will, be that will mine or not. It is there that prayer can help most!"

Thank you for your partnership in this amazing job of reaching the lost for Christ. We hope you know what an important part you play in this ministry!

Lovingly in Christ!

July 2014

Paul and Faith Wyma
