

# Thank You for Praying!!!

Dear friends,

We are so grateful to be able to let all of you know that my friend's father survived the operation! This is a miracle! Before the operation they said that the chance of survival was small, and that there were several points during the procedure that he could've passed away, but he survived!

I think the operation just bought him some time, not take away the cancer completely. I will hear the update some time this week.

**Please pray that my friend's father would realise that this extra time is a gift from God in Jesus Christ and that he would spend that time getting to know Jesus along with his family!**

John and Anna
