

Dear friends,

Two weeks ago we were very happy to welcome our team leaders here, on their way back to the Beloved Country. We had been spending rich time together, fellowshiping and making plans when suddenly and tragically, **their son-in-law passed away**. He leaves behind their daughter and 4 young children, as well as the farm they owned and ran as a family. Our TLs booked flights and headed back to South Africa to be with their daughter and grand kids — Please lift them up as they navigate this difficult time! **Please ask the Father to be with them and give them all they need as they comfort their daughter, jump in to help with grieving grand kids, support and take on some of the many operations of the family farm, all the while of course needing comfort themselves.** They don't know what this means for their own future plans yet.

Thank you for your prayers for John's friend's father - there has been so much MERCY and grace in this situation! **He is doing much better and the cancer now is not completely gone, but treatable. So God brought hope into what seemed like a hopeless situation.**

Thank you for lifting up A's friend, who also went for her last treatment last week. **If this treatment doesn't work there is nothing left that the doctors can do for her, so please pray for the treatment to work! Please pray for continued hunger for truth in the Word as they read together. May these time be like feasting together...especially as Ramadan is coming up and she will be fasting, even while being sick.**

An Opportunity Starting in just FIVE DAYS! Prayer this Ramadan

Next week Ramadan will start, a month on the Islamic calendar, dedicated to fasting, but also to pray and get closer to God. This Ramadan, **please join us as we want to cover the Berber people in North Africa with prayer.**

Click the image/link below and **sign up to pray daily** for them during Ramadan. You can dedicate **15 minutes** of your day...or even more if you want to!

Don't know anything about the Berber? No idea where to start? No problem!

Each day new prayer fuel will appear — each day will be dedicated to one Berber city and will give you an easy way to lift up these people who have been here in this region even before the Arabs brought Islam. Sign up to help us cover 24hours a day for this month — we believe these prayers will be used mightily

amongst these people. **Those of you who prayed with us last Ramadan — thank you! We had opportunities we've never had before because of your prayers.**
