

Dear Immanuel Family

Hello! We hope that you are well!

We are fine! This coming week we head to Asia! We will be meeting with everyone serving in 2 different countries over the course of 3 weeks. We appreciate prayer as we travel, and wisdom and guidance in all of our many meetings. We look forward to this specific time with everyone. It's always a good time of refreshment and encouragement for everyone.

In our South East Islands area, it has been exciting to hear how people are listening to teaching and desiring to continue to come and learn more! Due to being in a sensitive area, we know that this requires much commitment to continue to listen and learn! Please pray for open hearts!

In another area of that country, they just experienced major rain, flood and landslides. Our team in the area is fine, but praying for opportunities to help practically. Many in the villages have lost their homes and the rice factory in the area was mostly swept away. These losses can also be opportunities to share the Hope that is within us! Please pray as we help them help the villages they live in and also the surrounding area. Attached is a photo of some of the damage in their village.

We are grateful that we have accepted about 26 units to join GSI! We have a few more applicants to work through and we are now already gearing up for our GSI Orientation in July! This is when we welcome to workers and their church leaders, mission team members etc to GSI! Please pray as all the details come together!

Thank you for standing with us in this great work, and seeing those who haven't heard have the opportunity to hear the Gospel! The barriers can seem great, but we know we serve a great God, and His heart is for the nations! Thank you for your partnership!

We'll send a more detailed update once we're back in the US!

Love in Him
Greg and Julieann
