Dear Family and friends,

We've recently arrived back in the US after a few weeks in Asia!

Our time with our team in one of the people groups that they are living among, went really well. They are forming a team to reach this very needy language group. They live among a group of half a million people with only one known believer, no Bible, no church. Please pray as they continue this work and begin the translation of the Bible. They have a good means of staying in that location long term and building relationships and trust in the community.

After that, we had a large conference with most all of our overseas workers joining together for the first time since Covid. It was a much needed time of teaching, spiritual encouragement and fellowship. We also had time of training in areas of translation, language consultations and curriculum development which were really practical ways for everyone to get further training for their ministries.

We appreciate prayer for our workers as they are now back and continuing on in their works. Several are about to make moves to new people groups and start again in more isolated areas. The Lord keeps opening doors, for which we are so thankful!

Now we're back to receiving applications from current Radius students to join GSI! Its always a busy spring with interviews, and pastor calls but we are so amazed with those desiring to serve in difficult areas. Besides speaking at several conferences this spring we also will be headed to the Radius Missiological Conference in California this June 28-29. We highly encourage it if you could make it! <https://radiusinternational.org/radius-conference/>

And right after that, we will have our GSI orientation in FL with new workers and their pastors coming for a time of training. Thank you for standing with us!

Until all have heard,

**Love in Him Greg and Julieann**

Faith Free Church in Allentown Pennsylvania sent 16 child care workers to our conference all together we needed 36 workers to watch all the children during the event.

Julieann leading a question and answer session at the conference in Thailand, on handling stress on the mission field. Greg's sister Sharon is on the panel.

A highlight of our time away was having 2 18 year old young ladies travel with us to both the church plant area and then help with child care at the conference. One of them happens to be the daughter of our first hearing Buryat believer, who we met when she was just around the same age! It was special to be able to share how we met her mom and saw her come to the Lord and grow in her faith. We were able to share the story of how after our son Eric was born, after a difficult medical scare, that several encouraged us not to go back to Siberia. "Is it worth it?", someone said.

**We were able to say that if one more person came to know the Lord, it was worth facing any fears, or worries we had.**

**And that next person, was Maya, this young lady's mom!**

We had a pretty full on competition that took place during the time there. V won the event.

We had over 250 people attending from all of our countries, most or our field workers attended. This was the first time since Covid that many of these families were able to worship together. So many regions are still very locked down due to Covid - 19.
