

A Special Thanks!

The calligraphy above is a word that a local might say 100 times a day - When asked "How are you?" the reply comes swiftly "Alhamdulillah", meaning "Thanks be to God".

In our case, we can honestly say this as we enter the fourth month in North Africa. You are getting this email because you have partnered with us financially, and we are so thankful to God (who owns all things and put this on your heart) and to you for your financial partnership! Believe us when we say that you are as much part of His good news going out to the people of North Africa as we are! Thank you!

Because of Your Partnership...

A Mother's Touch

We were able to rent a house at a really good price and because of your generosity A could decorate to make this feel a little more like home to all of us.

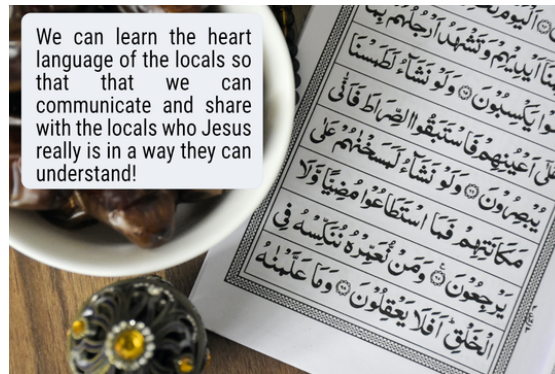

John's US Citizenship

When the US Govt. sent an email about John needing to appear in person in Buffalo THIS August 20th, we didn't have to panic and could pay for a last minute flight, with peace of mind. This will help him become a citizen that should make our lives in North Africa so much easier and safer in the future.

The Heart Language

Thanks to your generosity, we can attend a language school 5 days a week with a top notch method and teachers. We believe this foundation is an investment with impact for many years to come! **We are celebrating that we just finished the first phase of study last week!**

Exciting possibilities in our efforts to reach the Berbers that live among these mountains! Oh, that Christ might be made known to the ends of the earth!!

Paying it forward...

As we receive, we also support other workers that are working in the Beloved Country and on their way back there!

There are some exciting new possibilities to reach the Berber people there that we are all excited to be a part of!
